

AOC St-Joseph - Condrieu

## Saint Joseph *Méribets Red*

Assembling of different vineyards located mainly in the municipality of Serrières and Limony.

Harvested by hand.

Totally destemmed, which allows for long maceration (about 4 weeks) in open vats with pumping-over in the mornings and evenings.

This wine is then aged in oak barrels for about 10 months.

|                 |                                  |
|-----------------|----------------------------------|
| Varietal        | Syrah 100%                       |
| Soils           | Variation of clay granitic soils |
| Robe            | Intense purple                   |
| Nose            | Blackcurrants and violets        |
| Palate          | Fresh and delicate               |
| Serve           | T° 16°C                          |
| Potential aging | 4 to 8 years                     |
| Yields          | 36 hl/ha                         |
| Alcohol         | 12.5°                            |

This wine is excellent to accompany prime rib and venison
